► REGISTRATION

Standby/Waitlist Registration Fee: \$399

The Greater New York Summit is now at capacity and a standby/waitlist has been opened.

For Prospective Attendees:

Registration is closed, but prospective attendees can join the standby/waitlist. When registering for the standby/waitlist, your credit card information will be taken, but your card is not charged until you move off the standby/waitlist and become a registered attendee. When someone cancels, the next person on the standby/waitlist is registered automatically. At that time, the card on file will be charged and a registration confirmation email will be sent.

For Attendees Who are Already Registered:

If you need to cancel your current registration, please let us know by emailing webmaster@squarefootage.net before Wednesday, 5 PM (ET) April 24. You may be able to provide an opening for a standby/waitlisted person to attend, and would receive a full refund and all the usual fees to cover cancellation costs will be waived. Thanks for letting us know!

► SESSIONS: INFORMATION YOU CAN USE NOW & IN THE FUTURE

The Summit's agenda is organized into five key themes:

1. Innovative Ideas
2. Emerging Best Practices
3. Advancing Care Delivery Models Across Diverse Communities
4. A Deep Dive into Adaptive Reuse, Renovations & Flexible Facilities
5. Leveraging Technology

We are currently assembling a roster of speakers to share the latest on planning, real estate, design, construction, and operations of healthcare and life science facilities. Discover the emerging trends, strategies, and technologies reshaping the industry. Network with your industry peers. Earn CEU credits. Gain valuable insights you can put to work the next day.

▶ INNOVATIVE IDEAS

The Building as a Catalyst: A Phased Approach to Decarbonizing Research Buildings Through Electrification

Discover how Columbia University's new all-electric biomedical research building delivers on the university's climate commitments and satisfies New York City's Local Law 97. Gain insight into how integrating architectural and mechanical systems can solve spatial issues when electrifying this type of building. Understand why this project enables decarbonizing adjacent campus buildings. Learn how phasing of the project's mechanical system will support uninterrupted mission-critical operations in the adjacent buildings during planned upgrades.

- Patrick Burke, FAIA, VP Facilities Management, Operations and Planning, Columbia University
- Michael Delaney, Executive Vice President, LF Driscoll Healthcare
- Anthony Donatich, Director Capital Project Management, Columbia University
- Nikita Jathan, Senior Environmental Designer, Atelier Ten
