Healthcare Trends: View from Senior Leaders

Healthcare changed dramatically over the last three years! COVID unmasked the weaknesses, strengths, and opportunities for healthcare facilities. Grit, innovation, and technology got us through. Going forward we must address capacity, costs, flexibility, labor shortages, resiliency, technological change, social disparities, sustainability, and whatever will come next.

Leveraging Innovation During Market Uncertainty - What's Next for Modular Design & Construction

Examine one team's eight-year journey of innovating and advancing modularization in 50+ projects with Advocate Aurora Health, one of the country's top 12 not-for-profit health systems.

1. Explore the evolution of prefabrication and modularization. See how pre-pandemic prototypes advanced rapidly through COVID and inspired fully volumetric modular solutions.
2. Share the results across spans of projects: what worked, the lessons learned. How are escalations and supply-chain uncertainties addressed?
3. Confront the challenges with full volumetric modular and reflect on what further work is necessary to make modular a standard option for owners, especially when capital is becoming ever-more valuable.

Melanie Taylor, Vice President & General Manager, The Boldt Company

Beyond Resilience: A Net Zero Future for Healthcare

Bondholders, donors, and governments are targeting health systems to reach net zero operations. Yet, there's not enough power in the grid to supply 'All Electric' hospitals with the electricity they need. Energy optimization, on-site generation and storage help, but it's only the first step. This panel shares lessons learned and next steps to improve energy efficiency, cut operating costs, and reduce carbon emissions.

David Evans, Global Healthcare Segment Director, Schneider Electric

Braheem Santos, Healthcare Strategic Account Executive - Schneider Electric, and former Associate Director of Physical Plant and New Patient Pavilion Engineering Manager, Penn Medicine

Healthcare Real Estate: Extending Care Beyond a Hospital's Four Walls

The real estate needs of healthcare providers is changing by when, where, how, and by whom care is given. At the same time, macro trends in the real estate market are creating new opportunities. Learn how technologies such as telehealth, remote patient monitoring, and hospital-at-home are extending the geographic reach of health systems. And how shifting care to lower cost ASCs, MOBs, and retail settings is a competitive advantage. Explore the various ways to deliver an effective healthcare real estate strategy.
